Tariffs, deductibles and the importance of risk prevention Free market.

Sale, underwriting and claims process Organised by insurance companies.

State intervention According to the special Act on the elimination of consequences of natural disasters the state provides coverage of damage caused by natural disasters to individual, commercial or local community property (on buildings, roads, bridges, farmland, crops, forest areas, machinery, stock, loss of income). The cover is triggered if evaluated total direct damage exceeds 0,3 ‰ of planned state budget income. Perils covered by state intervention are earthquake, flood, landslide, avalanche, subsidence, frost, sleet, drought. Compensation is limited by the specified percentage of the claim for each type of losses and it takes into account the claim paid by the insurance. It is available for insured and uninsured.
